Category | Touring
Type | All Season

The latest in our line of environment-conscious tires, the Ecopia™ EP422™ is an all-season tire that delivers a smooth, comfortable ride. It is designed to improve rolling resistance, which helps it achieve better gas mileage. With its innovative tread compound and advanced traction technology, the tire is a strong, reliable performer on wet and dry surfaces--all year long.

WARRANTIES

Platinum Pact Limited Warranty
 Buy & Try 30 Day Guarantee

FEATURES & BENEFITS

NanoPro-Tech

Improves rolling resistance and contributes to fuel-efficiency and CO2 reduction by controlling the interaction between polymer, filler materials and other rubber chemicals at the molecular level

Fuel Saver Sidewall Compound

Helps lower rolling resistance by both returning more energy back to the tire and reducing heat generation as compared to a traditional sidewall

Silica

Improves traction in wet conditions by increasing flexibility of tread compound

Recycled Ground Rubber

Made from ground-up post consumer tires, it contributes to 5% of the tread compound

Circumferential Grooves

Help channel water out of the footprint area to improve resistance to hydroplaning

ECO

- Improved rolling resistance, which helps increase fuel efficiency and reduce vehicle emissions.*
- Reduced tire weight which conserves resources.
- Environmentally conscious materials, such as non-aromatic oil and recycled materials.

*As compared to the Bridgestone Turanza EL400 (Size: P195/55R16). Actual results may vary based on proper tire maintenance, vehicle, tire life, driving style and road conditions.
